Online  
Certification

Four Courses

The Borders, Trade, and Immigration Institute and the College of Technology at the University of Houston are partnering, under the guidance of U.S. Customs and Border Protection Office of Training and Development, to offer online certification programs in *Border Operations Management* and *Border, Trade, and Transport Security*.

### Fundamentals of Border Management

This course introduces participants to the history, purpose, and benefits of borders and boundaries, while various case studies demonstrate the sovereignty of nations, trade agreements, and the geopolitical and socioeconomic implications.

### Border Security and Cross-Border Challenges

This course emphasizes the critical analysis of the many challenges impacting border security, including governmental and agency policy, human and technology resources, political and public support, and the physical environment.

### Border Agencies and Strategic Border Management

This course examines the notion of the overall strategy of border management, which is coordinated, integrated, unified, while spanning across national and global partnerships.

### Ethics and Governance in Border Management

Ethical issues derived from the use of detection and identification technologies. Management of ethical challenges related to implementation of legal regulations and policies. Governance and enforcement of the law.
