

Anxiety, Alcohol Use, and Social Context among Latinos

Investigator: **Andres G. Viana, Ph.D., ABPP**

Are you a Latino(a) between the ages of 21-65 who drinks alcoholic beverages?

Participate in a study about the relationship between stress and alcohol and drinking behaviors among Latinos. This study involves 2 visits conducted one week apart. The first visit will last between 2.5 – 7.5 hrs; the second visit will last between 1.5 – 5.5 hrs. All procedures will take place at The University of Houston.

Compensation: You will be compensated between \$50 and a maximum of \$252 in cash for your time and travel, depending on the amount of time you spend in the study.

For more information, please contact Dr. Andres Viana's lab at The University of Houston at (713) 743-0772 or cttelab@times.uh.edu.

This project has been reviewed by the University of Houston Institutional Review Board (IRB) 713-743-9204.
