

Letter from the Dean

May 14, 2015

Dear Graduates,

On behalf of the University of Houston College of Pharmacy family, I extend a sincere congratulations and best of luck to the college's Class of 2015. You have been exceptional representatives of the College and University. I have no doubt that you will continue to serve as worthy ambassadors for the college by building upon our reputation for excellence.

I believe that graduates of the College of Pharmacy are unique in that, regardless of your chosen area of practice, all of you have the opportunity to enrich the lives of those around you. As you embark upon and progress through your careers, I urge you to always remember why you chose your respective field and the sacrifices that you endured in order to make it happen: to serve our communities and improve the quality of life and health of its members with compassion, honesty and integrity.

I would also like to give special thanks to the parents, spouses, children and friends of our graduates for their patience, understanding, sacrifices and support - both moral and financial - during these challenging, but rewarding, years at the college. Although your guidance, comfort and encouragement certainly will continue to be sought and appreciated in the years to come, you can rejoice in the gradual return to "normalcy" with no more long nights of studying, get-togethers unattended and trips untaken. Yet, even more so, you can relish the shared feeling of pride in what your graduate has accomplished and the abundant opportunities ahead.

In the coming years, I would ask that you not forget your college, former professors, and fellow and future Cougars. I encourage you to not only give back to the college by supporting college activities, programs and scholarships, but also by keeping us updated on the many achievements you will experience in your careers and personal lives. We will always take great pride in your achievements.

Congratulations again to the graduates of our professional and graduate programs. The entire UH College of Pharmacy Family is very proud of you.

Take care,

A handwritten signature in black ink that reads "F. Lamar Pritchard". The signature is written in a cursive, flowing style.

F. Lamar Pritchard, Ph.D.

Dean, University of Houston College of Pharmacy

OATH OF A PHARMACIST	Tara L. Jenkins <i>Associate Dean for Academic Affairs</i>
RECESSIONAL	

Oath of a Pharmacist

I promise to devote myself to a lifetime of service to others through the profession of pharmacy.

In fulfilling this vow:

I will consider the welfare of humanity and relief of suffering my primary concerns.

I will apply my knowledge, experience, and skills to the best of my ability to assure optimal outcomes for my patients.

I will respect and protect all personal and health information entrusted to me.

I will accept the lifelong obligation to improve my professional knowledge and competence.

I will hold myself and my colleagues to the highest principles of our profession's moral, ethical and legal conduct.

I will embrace and advocate changes that improve patient care.

I will utilize my knowledge, skills, experiences and values to prepare the next generation of pharmacists.

I take these vows voluntarily with the full realization of the responsibility with which I am entrusted by the public.

Class of 1965

The University of Houston College of Pharmacy's faculty, staff, students, and alumni salute the Class of 1965 on the 50th Anniversary of their Commencement.

Spring 2015

PHARMACY HONOR AND LEADERSHIP SOCIETIES

The Rho Chi Society, Pharmacy's academic honor society, was established in 1922 to encourage and recognize excellence in intellectual achievement, foster fellowship among its members, encourage high standards of conduct and character, and advocate critical inquiry in all aspects of pharmacy. The fundamental objective of Rho Chi is to promote the advancement of the pharmaceutical sciences through the encouragement and recognition of sound scholarship by bringing professional students, graduate students, and faculty members together in fraternal and helpful association. High standards of intellectual and scholarly attainment have been demanded for election to membership.

The Society's insignia, the Greek letters, "Rho" and "Chi," were originally selected because, when placed in the relative position in which they are found on the Rho Chi Key, they are emblematic of the prescription sign. The colors attached to the seal of membership were chosen to indicate the royalty of purple and the loyalty of white. The eight sides of the Key represent chemistry, biology, physiology, pharmaceuticals, pharmacology, and the biomedical, social/administrative, and clinical sciences.

PHARMACY HONOR AND LEADERSHIP SOCIETIES

Phi Lambda Sigma, Pharmacy's leadership society, was established in 1965 to honor and promote the development of leadership qualities, especially among pharmacy students. Members are selected by peer recognition. No greater honor can be bestowed upon an individual than to be recognized as a leader by one's peers. Such recognition instills and enhances self-confidence, encourages the less active student to a more active role and promotes greater effort toward the advancement of pharmacy.

The insignia of the Society is the key pin, which bears a mortar and pestle and the Greek letters "Phi", "Lambda" and "Sigma". A wreath of laurel surrounds the mortar and pestle. The colors of the Society are green and gold.

Academic Regalia

Academic costumes of today have a history of nearly eight centuries. In Medieval Europe, all townspeople wore long flowing robes and gowns. The materials and colors were governed by royal decree. Gradually, distinctive gowns were developed for the various professions, trades and guilds. Scholars wore robes and hoods to protect their shaved heads. Later, skullcaps were worn on the head, and the hoods became a cape that could be pulled over the head during unpleasant weather. As additional universities were founded, distinctive forms of the gown and hood were adapted by their faculties for bachelors (apprentices of the arts), masters (teachers), and doctors (teachers who had completed postgraduate studies). When caps and hats came into fashion in the 15th century, the hoods became ornamental, draped over the shoulders and down the back. The academic hat was first worn as a symbol of the master's degree and existed in various forms. The mortarboard style comes to us from Oxford University. When academic costumes came to America in 1754, styles were quite varied. In Europe, they still are; however, in our country, usage has been standardized by the Intercollegiate Code of Academic Costume.

CEREMONIAL SYMBOLS

THE SEAL

Throughout history, seals have been used to authenticate official documents. The University of Houston's and UH System's seals both bear the Official Seal of Arms of General Sam Houston, as handed down to him from his noble ancestors. It includes the escutcheon in the center of the seal - consisting of checkered chevrons denoting nobility - and three martlets, gentle lowland birds that symbolize peace and deliverance. A winged hourglass is placed above the shield. Surmounting this is the motto "In Tempore," meaning "In Time." The greyhounds indicate speed of giving aid. The UH seal was first adopted in 1938 as the present campus was established. Although the look of the seal has evolved over the years, the first version was etched into the floor of the Roy G. Cullen Building.

COLLEGE OF PHARMACY COAT OF ARMS

The College of Pharmacy Coat of Arms was designed by student, Gia Castorina, Class of 2015. It displays the values of professionalism, expertise, and involvement in the pharmacy community. Traditionally, the coat of arms represents the history and values of a school but Gia has incorporated not only the history, but also our future as a leader in pharmacy.

Symbolism for the Elements Compiling the UHCOP Coat of Arms

Open book: Symbolizes manifestation; Exemplifies abstract ideas, theories, and scholarship. This pays tribute to the hard work of the student body and their "life-long" learning in the field of pharmacy.

Mortar and pestle: A symbol of pharmacy due to historical use in preparing medicines. This signifies our mission statement of exhibiting the ideals of pharmacy professionalism.

Scales: Represents justice; A pharmacist seeks justice in the distribution of health resources. The scales also serve as a reminder that as pharmacists we must always show ethical behavior. We must weigh out difficult decisions and make challenging judgement calls.

Bowl of Hygeia: Another symbol of pharmacy. In Greek mythology, Hygeia was the daughter and assistant of Aesculapius (sometimes spelled Asklepios), the God of Medicine and Healing. Hygeia's classical symbol was a bowl containing a medicinal potion with the serpent of Wisdom (or guardianship) partaking it. This is the same serpent of Wisdom, which appears on the caduceus, the staff of Aesculapius, which is the symbol of medicine.

College of Pharmacy Founding – the year the college was founded "est. 1946" is inscribed in the banner.

The Alma Mater

All hail to thee,
Our Houston University.
Our hearts fill with gladness
When we think of thee.
We'll always adore thee
Dear old varsity.
And to thy memory cherished,
True we'll ever be.
