

PI Work Center Reports

Three new reports have been added to the PeopleSoft Grants PI Work Center to allow Principal Investigators (PI) to view their Proposals, Awards, and Project cost centers. The report links are located in the left column of the PI Work Center shown below. PIs with faculty title/assignment can access the PI Work Center via the [AccessUH PI Portal](#).

Lines highlighted in green indicate proposal/awards/projects where the PI is the lead or primary PI. Lines not highlighted indicate that the PI is listed in the F&A credit split. The download grid at the top left of each report allows the user to download the information to excel.

My Proposal: This report has three tabs listing pending proposals, proposals not funded, and awarded proposals. Click on each tab to see the list, then click on the proposal number hyperlink to see details about the proposal. If a proposal is on the incorrect list, i.e. if a pending proposal was not funded, the PI should contact their Research Administrator (RA) to update the status.
